DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Michael J. Mallie (Reg.No. 36,591) on January 21, 2004.

The application has been amended as follows:

Cancel claims 77 - 103.

Application/Control Number: 10/609,268 Page 3

Art Unit: 2834

Reasons for Allowance

2. Claims 1-9 and 57-76 are allowed.

3. Examiner's Statement of Reasons for Allowance:

Applicant(s) invention relates to a variable speed wind turbine generator, and more specifically, to a control scheme for the wind turbine generator.

The system of variable speed wind turbine generator has wound rotor induction generator with a torque controller and a rotor current generator to generate rotor current flux component in response to the power factor control and a pitch controller to perform pitch regulation based on generator speed.

There are inventions in the field that provide similar functionality and/or have similar features, as prior art of record shows. Applicant(s) invention differs from the prior art of record by the control scheme for a variable speed wind turbine generator, which is performing as disclosed and claimed, and which examiner's search failed to find.

It appears that present invention is an improvement over applicant(s)' earlier inventions of the record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
